

STUDENT SERVICES

The Office of Admissions and Student Services¹ exists to support students and enhance their quality of life and to facilitate their academic endeavors while in attendance at Liberty University College of Osteopathic Medicine. The curriculum at LUCOM is rigorous and is designed to prepare students to become osteopathic physicians, placing demands on the student and the student's family that often mandate outside assistance. The Office of Admissions and Student Services intentionally strives to execute retention activities to help meet the diverse emotional, spiritual, social, physical, financial, and academic needs of students. The Office of Admissions and Student Services maintains an open-door policy to guide and advise students on personal and spiritual matters.

Student Services is responsible to provide oversight for, collaborate with and coordinate student government and student organizations' activities: social, community service and outreach events, educational presentations, symposiums, etc.

The Office of Admissions and Student Services works with the Office of the Dean to assign student advisors for the individual students to provide mentorship, role modeling, and general guidance during the student's time at LUCOM.

Flames Pass

The Flames Pass is the physical Liberty University ID and access badge. This university-issued identification badge must be worn as specified in LUCOM's Dress Code Policy. For students who matriculated in Fall 2024 and prior, it provides access to the college and its various educational and administrative areas such as the laboratories and library. It can also provide access to pre-paid meal plans and Flames Cash. As an access device, the Flames Pass is valid as long as a student is actively enrolled and financially in good standing.

The Mobile Flames Pass is available to all residential students and current local faculty and staff. The Mobile Flames pass is used by students to gain access to various educational and administrative areas such as the laboratories and library. It is valid as long as a student is actively enrolled and financially in good standing. Students that matriculate into LUCOM in Fall 2025 and later will be required to use this service. Other students, faculty, and staff will be able to opt-in to the service. Activation of the Mobile Flames Pass service will deactivate the physical Flames Pass. Individuals using the Mobile Flames pass will be provided with a non-tappable ID badge to wear in alignment with LUCOM's dress code policy.

The Mobile Flames Pass acts like a physical ID card through a smartphone's digital wallet. The Mobile Flames Pass can be used to gain building, door, and gym access. Additionally, it can be used to gain access to other locations across campus. Any student who does not have a smartphone device may contact ID and Card Services to request the physical Flames Pass. For more information, please visit the Mobile Flames Pass Frequently Asked Questions page.

Parking Decals²

Any motor vehicle (including motorcycles, motorbikes, and mopeds) or bicycle operated or parked on property owned or controlled by Liberty University must display a valid Liberty University parking permit or pass. The type of permit or pass indicates the areas in which a vehicle may be

parked. COM students will have an assigned parking lot on campus and any car parked in faculty or clinic parking is subject to a ticket or tow.

Students must register for their parking permits or passes with the Liberty University Police Department during orientation and annually by following the directions on the LUPD webpage. Students must abide by all parking rules and regulations as stated on the Liberty University Police Department webpage.

Liberty University Police Department (LUPD)²

The Liberty University Police Department (LUPD) provides 24-hour a day patrol, police, security, and emergency medical services to the campus, parking lots, residence halls, and other properties owned or controlled by the University.

LUPD officers are duly sworn with full law enforcement powers and responsibilities, identical to those of the local police or sheriff's department in any local community.

LUPD reminds students that safety is a community responsibility. A truly safe campus can only be achieved through active participation of all persons who reside, work, study, or visit on campus.

LUPD Contact Information:

- On-campus Emergency Services (Police, Fire, EMS): (434) 592-3911
- Non-Emergency and Escort Service: (434) 592-7641

BankMobile Card³

The BankMobile card is issued to every Liberty University student and is the tool needed to select a refund preference to receive financial refunds. BankMobile is the banking partner that disburses refunds for the University. For new medical students, the card is sent to the mailing address on file with the University approximately three weeks prior to first day of orientation on campus. Financial check-in must be completed before the student will receive their card.

A student retains the same card during their time as a student at Liberty University. For returning students (those who were once a student at Liberty University) the original BankMobile card will still be active. If the student no longer has possession of the card, please contact ID & Campus Services to have another card ordered. Important: No refunds from a student account can be processed until the card is activated online and the refund method selected.

For more information, contact the LU ID & Campus Services Office.

International Student Center

The International Student Center provides academic and cultural support through advising, advocacy, and events to faculty, staff, and domestic and international students. For more information about life at Liberty, life in the U.S., maintaining status, employment, and more, visit the International Student Center page.

Lockers

Students will be assigned a locker annually during the OMS-I and OMS-II years. They are available for usage from the first day of class the first semester until the last day of class at the end of each year. Students are to provide their own lock. The University or College are not responsible for theft or lost items from the lockers. The lock and the material in the

locker must be removed within one week after the end of the each year or the lock will be cut and the material in the locker disposed of by the College.

Mental Health and Wellness⁴

Mental Health Policy

LUCOM is committed to providing mental health resources to its students across OMS I-IV. The COM offers access to mental health services (1.) through Liberty University Counseling & Psychological Services (LU CAPS), and (2.) to students within the United States 24/7 365 days a year through TimelyCare, and (3.) via resources at core and affiliated sites. Each of these entities abide by strict confidentiality practices and protection of students' rights at all times. For contact information for these resources, please see below and the LUCOM Student Services webpage. Furthermore, the Safety, Health, and Wellness Committee's charge includes developing and supporting policies, procedures, events, and recommendations that advance and promote LUCOM students' mental health.

Mental Health Procedures

There are multiple ways to initiate mental health resources and support. LUCOM encourages students to reach out directly to the sourced mental health resources, or to their provider of choice. Additionally, students can contact LUCOM's Academic Support and Success Center for academic and mental health resources. Furthermore, students can be referred by peers, faculty, or staff to LU CAPS for mental health resources and support.

Students can find care through drop-in consultations, group meetings, or individual sessions through Liberty University Counseling & Psychological Services (LU CAPS). To make an appointment to see a counselor, LU CAPS offers same day access. To access services for the first time in the semester, a student should visit Counseling & Psychological Services during walk-in hours, which are between 9 a.m.-3 p.m. on Mondays, Tuesdays, and Thursdays. On Wednesday and Fridays, walk-in hours are between 12 p.m.-3 p.m. The student must come in during walk-in hours for their first appointment, and all subsequent appointments will be scheduled directly with the student's counselor. **Counseling & psychological services are free for the student.** In accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) and Health Insurance Portability and Accountability Act (HIPPA), the counseling and educational record of each student is considered confidential.

Furthermore, all LUCOM students have access to TimelyCare, a virtual health and well-being platform available 24/7 for LUCOM students. Services include on-demand support of common health issues, on-demand emotional support to talk about anything, scheduled medical appointments, scheduled counseling appointments (12 visits per year), health coaching, psychiatry appointments (available through referrals), self-care content, and basic needs support. Go to [timelycare.com/LUCOM](https://www.timelycare.com/LUCOM) or download the TimelyCare app to access care. Log in using your Liberty email address. **TimelyCare resources and services are free for all LUCOM students.**

Finally, students completing core rotations, site coordinators will provide students with accessible mental health services in proximity to the site. Please refer to Accessible Mental Health Resources for additional information outlining accessible mental health services at core rotation sites. For affiliated, non-core rotation sites, please reach out to the site coordinator directly. LUCOM's core and affiliated clinical training sites may render care but are not responsible for the cost of such care.

Students are financially responsible for any medical care they receive at a training site. A health professional providing health services, via a therapeutic relationship, must recuse him/herself from the academic assessment or promotion of the student receiving those services.

Educational Resources for Mental Health

LUCOM will provide annual education on available mental health resources to all students and employees.

Clinical Resources for Mental Health

In order to provide access and equity of mental health services for all students throughout the continuum of preclinical and clinical education, LUCOM students across OMS-I through OMS-IV have access to TimelyCare, providing free, 24/7 access to providers from anywhere in the United States, including TimelyCare's TalkNow service, providing on-demand 24/7, mental and emotional support, health literacy guidance, and crisis management by masters-level behavioral health professionals available outside of the United States.

If there are significant concerns due to fatigue or life balance (e.g. resulting from health issues, life events or others), a Leave of Absence (LOA) is available for students to take a break from academic requirements and return when issues have been addressed as outlined in the Leave of Absence Policy. LOAs can be requested through The Office of the Registrar.

Liberty University Resources

LU Counseling and Psychological Services (CAPS)

Professional counselors are available to provide individual counseling, group counseling, and referrals as needed.

Green Hall, 1830
(434) 582-2651

Emergency: (434) 592-3911 (Services available 24/7)
Non-Emergency: (434) 592-7641
LUPD@liberty.edu
Monday – Friday
7:30 a.m.-4:30 p.m.

Local Resources

For students in Lynchburg, the following provides local mental health services that students may access confidential services during business hours:

Centra Piedmont Psychiatric Center

3300 Rivermont Avenue
Lynchburg, VA, 24503
(434) 200-5999
Monday – Friday 8:00 a.m. -5:00 p.m.
*After hours, for an emergency, call 911 or go to the nearest emergency department (Lynchburg General Hospital)

LUCOM Rotation Resources

For students completing core or required rotations at core rotation sites, site coordinators will provide students with accessible mental health services in proximity to the site. Please refer to Accessible Mental Health Resources for additional information outlining accessible mental health services.

Fatigue Mitigation ⁴

The following policy relates to fatigue mitigation.

Fatigue Mitigation Policy

The accreditation standards for graduate medical education (GME) programs include restrictions on the duty hours of residents. Additionally, institutions are expected to promote a clinical learning environment in which duty hours are monitored and strategies exist to mitigate the effects of fatigue.

As LUCOM prepares student doctors to enter into GME, the COM is committed to promoting medical education, safety and well-being in a supportive educational environment and ensuring students appear appropriately rested and appear mentally and physically fit for educational and clinical responsibilities. This policy is established to proactively provide education and resources that assist in the prevention and mitigation of stress and fatigue, as well as promote strategies for lifelong approaches to health and wellness as a component of professional responsibility. The policy addresses fatigue at a level causing cognitive and/or motor impairment that is defined as weariness or exhaustion from exertion and stress, possibly manifesting in physical and/or mental symptoms causing impairment in functioning.

This policy provides guidance on methods and available resources that aim to:

- Ensure that students receive education on fatigue, sleep deprivation, burnout, and other issues related to physical and psychological well-being.
- Ensure that students receive education on fatigue management and mitigation strategies, other mechanisms to promote well-being, and available mental health resources for stress management and strategies or overall life balance.
- Promote medical student understanding of duty hours on clerkship rotations, duty hour restrictions, the rationale behind them, and the importance of adherence. (Please refer to Clinical Rotations Policies and Procedures)

Fatigue Mitigation Procedure

Any concerns regarding fatigue, health and wellness including perceived symptoms (stress, anxiety, depression, exhaustion etc.) of self or others,

may be reported to LUCOM administration. Appropriate steps will be taken to investigate the concern confidentially and identify appropriate strategies to address the concern. Additionally, students will receive training on fatigue mitigation and corresponding strategies in addition to educational and clinical resources that address fatigue mitigation and health and wellness, as referenced in subsequent sections.

Educational Resources to Address Fatigue Mitigation

LUCOM will provide annual education available for all faculty members, students, and staff on recognizing the signs of fatigue and sleep deprivation, and information on alertness management as well as self-care and life balance.

The annual education will consist of providing education on fatigue, sleep deprivation, burnout, and other issues related to physical and psychological well-being through the use of synchronous educational activities provided by qualified health professionals and/or asynchronous educational resources that include, but are not limited to, the use of the LIFE Curriculum.

Clinical Resources to Address Fatigue Mitigation

The preclinical academic schedule and attendance policies allow for flexible time for study, life balance and rest if needed. This also allows flexible time for faculty and staff to balance various responsibilities with the goal of reducing stress and fatigue; and LUCOM provides a limited number of confidential counseling services each year for students. Services are provided by outside mental health providers and are completely anonymous to LUCOM. Students can contact LU CAPS for a referral to local counseling services.

Physical Health Services ⁵

Physical Health Policy

Students may seek diagnostic, preventive, and therapeutic health services at the provider of their choice. The following information is provided as a resource to assist students in seeking health care services that are available as students enrolled at Liberty University College of Osteopathic Medicine. For contact information for these resources, please see below and the LUCOM Student Services webpage. Furthermore, the Safety, Health, and Wellness Committee's charge includes developing and supporting policies, procedures, events, and recommendations that advance and promote LUCOM students' physical health.

Physical Health Procedures

Students may schedule an appointment at the Liberty University Student Health Center (LUSHC). During the academic year, appointments can only be scheduled in person for the current day. During the summer, students may schedule an appointment via phone. Students can visit the Student Health Center an unlimited amount of times. Seeing the same provider when there are multiple visits for ongoing medical issues ensures continuity of care. General office visits are appropriate for most conditions, but LUSHC providers will make appropriate referrals to outside specialists.

Furthermore, all LUCOM students also have access to TimelyCare, a virtual health and well-being platform available 24/7 for LUCOM students. Services include on-demand support for common health issues, on-demand emotional support to talk about anything, scheduled medical appointments, scheduled counseling appointments (12 visits per year), health coaching, psychiatry appointments (available through referrals), self-care content, and basic needs support. Go to timelycare.com/LUCOM or download the TimelyCare app to access care. Log in using your Liberty

email address. **TimelyCare resources and services are free for all LUCOM students.**

As it is the policy of LUCOM that students may seek diagnostic, preventive, and therapeutic health services at the provider of their choice, students may access walk-in care at local clinics or hospitals. For students in the clinical years, site coordinators will provide students with accessible physical health services in proximity to the site. Please also refer to Physical Health Resources for additional information outlining accessible physical health services.

Physical Health Educational Resources

LUCOM will provide annual education on available physical health resources to all students and employees.

Physical Health Clinical Resources

All students have access to the Liberty University Student Health Center on Liberty University's campus. The Liberty University Student Health Center's services are designed to promote the current and future well-being of our student-patients through the provision of nationally recognized healthcare. The LUSHC offers services that are cost-effective and responsive to student needs so as to reduce the impact of illness and other health concerns which may interfere with student success.

On campus healthcare services are provided as a convenience for students and staff. Payment for services rendered is the patient's responsibility. If preferred, the student may contact any other health provider of their choice.

Services Offered Include: Women's Health, Upper Respiratory, Allergy & Immunization, X-Ray, and Labs. Please contact or visit the Liberty University Student Health Center for a detailed description of provided services.
