

# GENERAL BIOLOGY MAJOR (B.S.)

---

## Purpose

The purpose of the Bachelor of Science in General Biology major is to prepare students for medical and related professional schools, graduate school, and employment in the biological sciences or in teaching. Students are given a broad and well-developed understanding of the biological sciences while studying God's complex creation from the molecular to the ecosystem level

## Program Learning Outcomes

The student will be able to:

- Apply standards and principles of safe practice in the laboratory or field environment.
- Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
- Demonstrate knowledge of fundamental biological concepts.
- Conduct, analyze, and summarize biological research.

## Program of Study

### Delivery Format: Residential Only

- General Biology (B.S.) - Resident

## Career Opportunities

- Agricultural Biotechnologist
- Biomedical Laboratory Supervisor
- Environmental Scientist
- High School Biology Teacher
- Middle School Science Teacher
- Veterinarian
